Robotic Gynaecological Surgeons

BIARGS/ CMR Versus Gynaecology robotic course

Venue: CMR Surgical - Evolution Business Park , Cambridge CB24 9NG

Course certified by BIARGS
www.biargs.org.uk

15th July 2024

Course Directors: Nahid Gul & Gareth Rhind

This one-day course is aimed at gynaecology surgical trainees and consultants who are new to robotic surgery. The generic skills covered in this course will be useful for a wide range of gynaecological procedures. Delegates will benefit most from this event if they are in a position to consolidate their robotic skills when they return to their own clinical setting.

Hands training. focusing on:

- Experience in robotic multiple arm platform setup and console use.
- Principles for dissection
- Simulation to develop robotic skills (Versius trainer simulator (VT) (Heavily discounted course as BIARGS training initiative
- Procedural training on manikins for adnexectomy and hysterectomy
Practice use of electro-surgery and suturing
