

## BIARGS Robotic Gynaecology anatomical live surgery and hands-on Masterclass

**Venue: The Christie HCA Hospital, Manchester: 17<sup>th</sup> November 2024**

This one-day course is aimed at gynaecology surgical trainees and consultants who are new to robotic surgery. The generic skills covered in this course will help you to manage complex pelvic pathology. Course is aimed to increase knowledge and understanding of retroperitoneal pelvic anatomy with emphasis on **URETEROLYSIS (Gateway to managing complex pathology)** and **DEVASCULARISATION** of uterus. This will be demonstrated during live surgery streaming. Learning principles of avascular dissection and nerve sparing surgery will help you to reduce operative complications. Delegates will benefit from console experience, master robotic assisted dissection and suturing during hands on practical session

### Skills concentrated during masterclass

- Pelvic side wall dissection, ureterolysis (Medial and Lateral approach)
- Uterine artery dissection and ligation
- Principles of retroperitoneal approach
