

BIARGS Basic Robotic Gynaecology course

6th December 2024

Course certified by BIARGS

www.biargs.org.uk

This one day course is aimed at gynaecology surgical trainees and consultants who are new to robotic surgery. The generic skills covered in this course will be useful a wide range of procedures. Delegates will benefit most from this event if they are in a position to consolidate their robotic skills when they return to their own clinical setting.

Delegates will benefit from intensive hands on training on simulation practice using synthetic, VR and biological tissue. **6 Hours CPD**

Focusing on:

- Experience in robotic console use and robotic multiple arm platform
- Simulation
- Navigation of robotic instruments
- Change of instruments
- Use of third arm
- Principles use of electrosurgery and suturing
